

Create RAID with Windows 10 Installation

1. Proceed to the BIOS setup menu, and select "VMD setup menu" on "System I/O" folder.

2. Set "Enable VHD controller" to [Enabled]
Set "Enable VHD Global Mapping" to [Enabled]

3. Press the "F4" function key to save and reboot

4. After rebooting, proceed to the BIOS setup menu, and select "Intel® Rapid Storage

Technology" on "System I/O" folder.

5. Select "Create RAID Volume"

6. Rename the RAID volume name (for option)

7. Select RAID type

8. Press the "Space" key to select the hard drives that are used as RAID

The selected disk is marked with "X"
(Two disks are required at least)

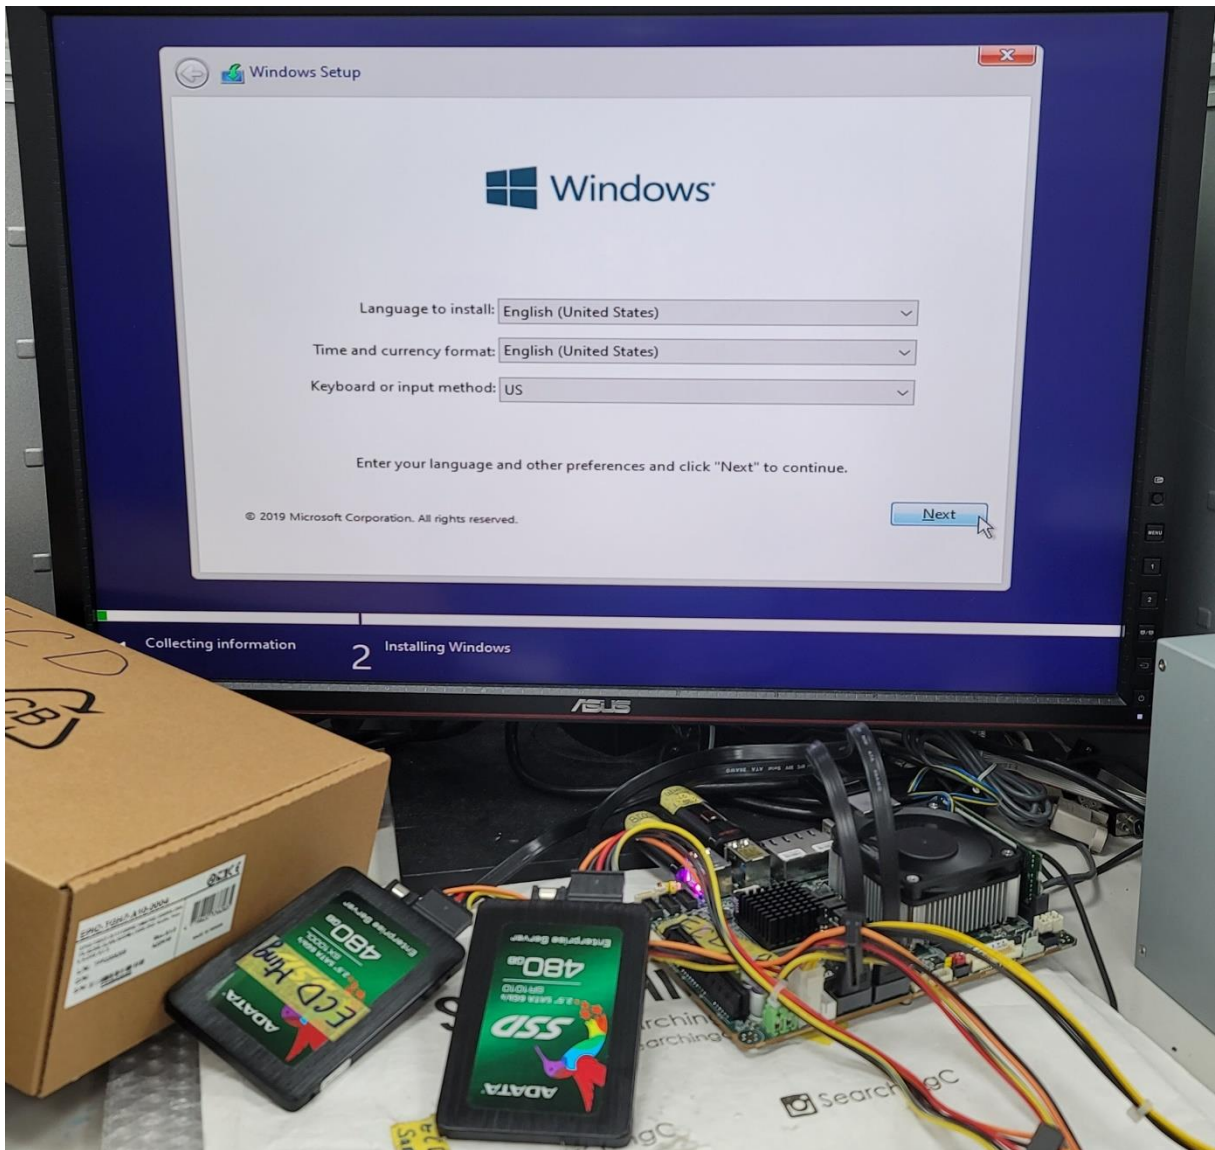

9. After the setting is completed, please select "Create Volume" to create RAID

10. The RAID disk is created successfully

11. Install Windows 10 with RAID without problem

Windows Setup
